

Reordering Supplies

The Away-From-Home Recycling package includes everything you need to recycle at events, but you will need to reorder bags at some point, and you may want to order additional stickers and signs, or even lids and frames. The information provided in this packet may change over time, so be sure to check the Away-From-Home Recycling link at www.recycle4georgia.org

The ClearStream bags are 40” by 46” tall and made of 1.25 mil LLDPE plastic with a star-sealed bottom. Any bag that opens to 40 inches can be used with the ClearStream frame, but it must be clear plastic to discourage contamination. Materials can be ordered directly from their Web site: www.resourceful-1.com Note the different types of bags available; if you’re collecting glass at your event you’ll want to choose the heavy duty bags.

Before ordering any supplies, check with DCA’s Kenny Dove at kdove@dca.state.ga.us; you may be able to benefit from state quantity purchasing discount pricing.

Item	Vendor	Contact Information
